Professional Summary

BCA graduate and current MCA candidate specializing in Cloud Computing, with hands-on experience in IT infrastructure, Active Directory, technical troubleshooting, networking, and ServiceNow. Skilled in TCP/IP, DNS, DHCP, Windows Server, Linux, VMware, and enterprise incident management, with experience handling JML activities and user access issues. Familiar with VPN, Wi-Fi, network troubleshooting, ITIL practices, and technical documentation, with strong communication and problem-solving skills and an interest in network support and infrastructure operations.

Experience

Cognizant Technology Solutions (Multinational Company) *Bangalore, India*
Analyst (Infra Ops Engineer) *Sept. 2025 – Present*

- **Windows Server Administration** – Hands-on experience with Active Directory, DNS, DHCP configuration, and server management.
- **Networking & Virtualization** – Understanding of networking, VMware vSphere (vCenter, ESXi), and virtual machine provisioning.
- **Linux System Management** – Basic administration, command-line operations, and automation scripting.
- **Storage & Backup Solutions** – Knowledge of SAN, DAS, and NAS architectures and monitoring/backup tools for data protection.
- **Database Management** – Exposure to Microsoft SQL Server and Oracle fundamentals.

Projects

Infosys Springboard – Full Stack Web Developer Intern *Oct. 2024 – Dec. 2024*
E-Learning Management Platform GitHub Repo

- Improved LMS modules using Java, Spring Boot, Angular, and MySQL to enhance platform performance and usability.
- Refined backend logic and database structure for smoother data handling and faster server responses.
- Designed interactive UI components using Angular and Tailwind to improve user engagement.

Euphoria GenX – Full Stack Web Developer Intern *Aug. 2024 – Dec. 2024*
Online Restaurant Ordering & Management System

- Contributed to a restaurant management system using JavaScript, PHP, and MySQL with a focus on smoother order processing.
- Created responsive front-end layouts using HTML5, CSS, jQuery, and Bootstrap for better multi-device accessibility.
- Implemented the client-required features and performed structured testing to ensure stable functionality.

Student Admission Portal – Full Stack Developer *Apr. 2025 – Jun. 2025*
Web-Based Student Admission & Fee Management System Live Demo

- Developed a complete admission workflow system that covers registration, course selection, and fee processing.
- Crafted clean, user-friendly dashboards using HTML, CSS, JavaScript, and Bootstrap.
- Built a secure MySQL database with role-based access control to ensure protected data handling.

Education

Maulana Abul Kalam Azad University of Technology
BCA (2022–2025)
CGPA: 8.53

Gustia Kshetra Nath High School
Class 12 (88.80%, WBCHSE) Class 10 (70.50%, WBBSE)

Manipal University Jaipur
MCA (2026–2029)
Pursuing

Skills

Networking & Virtualization: Network Fundamentals, VMware vSphere (vCenter, ESXi)
Linux & Storage Admin: Linux Server Administration (RHEL, Ubuntu), SAN/DAS/NAS Architecture
Backup & Monitoring: Backup Solutions, Nagios, SolarWinds, SCOM
Middleware & Automation: Python Scripting, PowerShell Scripting, Middleware concepts, ITIL Best Practices
Infrastructure: Windows Server 2022 Administration, Active Directory, DNS, DHCP
Programming Languages: Java, Python, JavaScript
Front-End: HTML5, CSS, Bootstrap, Tailwind CSS
Database: MySQL, SQLite, Oracle, MSSQL
Tools: Git, GitHub, XAMPP, VS Code
Concepts: OOPS, CRUD operations, SDLC, Agile

Languages
